LANGUAGES

Italian: Native

English: B2 level

DIGITAL SKILLS

Programming languages

Java / JavaScript / Python

Other languages

SQL / HTML / CSS

Technologies and frameworks

Node.js / Express.js / React / MongoDB / MySQL /
React Native / Selenium / Git / Material UI

Soft skills

Good teamwork skills and adaptability /
Problem Analysis & Problem Solving

Basic knowledge

Spring Boot / Unity / AWS / Blockchain

PROJECTS (code on my website)

Book E-commerce

Online book sales platform based on MVC architecture,
developed using Java, MySQL, and AJAX for dynamic
searches.

Content Evaluation and Management Platform

Group project aimed at simulating the development cycle
of enterprise software, focusing on technical
documentation, UML diagrams, Git versioning, and
Selenium testing. Developed in Java.

Hospital Vaccine Management Database:

Development of a SQL database for hospital vaccine
management, from E-R analysis to implementation.

Technological Products E-commerce

Personal development of a tech product e-commerce site
using the MERN stack, JWT for session security, and
Material UI for design.
